## LOCAL DEPARTMENT.

### An Extensive Establishment.

We have lately gone through the different departments of the large dry goods store of McKee & Bro., of our city, and were truly gratified at the immense stock of goods kept by this energetic and enterprising firm. As an evidence of the business of Janesville, a detailed description of this establishment will be interesting to our readers.

The "Brothers" occupy two large buildings, fronting 44 feet on Main street, with a depth of 100 feet, and five stories high, including the basement, entirely used for a wholesale and retail trade in dry goods, clothing, etc., etc.

Both cellars are filled to their utmost capacity with goods for the wholesale trade, purchased by them in "original packages" direct from the manufacturers and large commission houses both in Europe and America.

One of the firm lately informed us that the wholesale trade which they have done, for the past year, has far exceeded their most sanguine expectations. The lower floor, 22 by 100 feet, of this large concern is devoted to the retailing of staple and fancy dry goods, and giving constant employment to from twelve to sixteen clerks. The general clothing, hat, cap and woollen department, on the same floor, occupies a space of 22 by 70 feet, there being from fifty to one hundred hands employed in that department alone, for the manufacture of clothing, of which there is an immense stock constantly on hand. This is a good idea, as they are confident of getting garments made up in a most substantial manner, besides giving employment to so many industrious mechanics of our city.

The whole second floors are occupied by the wholesale millinery department in all its varied branches, and we are credibly informed that up to the present, their sales this season have been double that of former years. This branch of business was formerly done altogether in Chicago and Milwaukee until the opening of McKee & Bro.'s ware rooms.

The third and fourth stories are used altogether for the storage and sale of carpets, oil cloths, druggists, matting, rugs, etc., and general furnishing goods. The stock is complete, embracing everything in that department. Altogether, their stock is immense, and comprises all styles of goods and will compare favorably with that of large stores in Atlantic cities.

We are proud to see houses of such magnitude carried on with evident prosperity. It speaks well for our city and county. Such is the close competition and the desire of our merchants generally to do a large business, that Janesville for many years has had trade from almost all the surrounding counties, not in dry goods alone, but in all the other branches of trade. There are several other large business houses in the city, whose names are as familiar as household words, and who, in connection with the McKees, have won Janesville an enviable reputation throughout the west.

**TAKES.**  
The undersigned gives notice to all those who have not paid their city tax, that unless paid forthwith he will proceed to collect the same according to law.  
JANESVILLE, Oct. 22, 1860.  
GEO. A. YOUNG, collector.

Mr. Harper for November has been received at Dearborn's.

**BUCKSKIN GLOVES.**—Bornheim has a large number of buckskin gloves for sale.

**Don't forget to come and enjoy yourselves at the P. M. church at 7 o'clock this evening.**

**A VOTE ON THE CARS.**—The Watertown Republican says—"A special train was run to this place from Waterloo last Friday for the accommodation of people living there who desired to hear Judge Douglas. On the way in, a vote was taken as to the presidential preferences of the passengers, and resulted as follows: viz: Douglas 33; Lincoln 25. We should judge that about the same ratio prevailed in the crowd present at the depot to hear Douglas speak. At all events, a large number were Lincoln men."

**NEW GRAIN STOREHOUSE IN CHICAGO.**—Munger, Armour & Co. are about to erect a new grain storehouse on the South Branch, near the railway bridge. The Herald says the building on the ground, exclusive of the engine-house, is to be 80x270 feet and 110 feet high from the ground to the top of the roof. There will be used in its construction 65,000 cubic feet of stone, 1,500,000 feet of timber and lumber, 70 tons of iron, 1,500,000 bricks. Its capacity will be nearly 700,000 bushels, and the plan is adapted to receive grain from sixteen cars at once, or to load two vessels at the same time. The entire cost will be about \$95,000, and it is expected to have it in complete working order by the fifteenth of next April.

**TAX TITLES IN WISCONSIN.**—The circuit court in session lately in Lancaster, decided that possession of lands under a tax title deed for three years and more under the limitation act of 1849, was no protection to the occupant. The titles are rather poor foundations to build on.

**WHO IS RIGHT?**—The Democrat of this city has information from "a resident citizen of Watertown, and a man in whose honor and veracity the most implicit confidence can be placed," that no assault was made upon the Wide-Awakes who visited that city when Mr. Grow was announced to speak there. If the informant alluded to is of the character stated, he has a manifest advantage over the operators upon the hand organ which vouches for him. We will, however, turn this informant over to the Watertown Democrat, a democratic journal published where the assault was made. It condemns the outrage, and declares that "When assaulted with clubs and stones, it is natural that they should defend themselves, and the way they walked into a saloon where they had been outrageously attacked was a caution to the offenders that they had better get out of the way. Some of the mischievous boys had badly bruised, and if others who escaped had a few blows that were received by the innocent, it would have been all right."

## Republican Club Meeting.

The Janesville City Republican Club will meet at the court room, Tuesday evening, Oct. 23d, at half-past 7 o'clock. It is important that every republican in the city attend this meeting, as full arrangements will be made to complete the work of the campaign. M. B. HAWES and others from the city, and perhaps a speaker from abroad will address the meeting. Do not fail to come and come early.

R. B. TREAT, Pres.  
A. A. JACKSON, Secy.

**The Wide-Awakes.**  
Are requested to assemble at the same time, for important business. It is hoped that every member of the company will be present.  
A. B. McLEAN, Captain.

## Republican Meeting at Hanover.

On Saturday last a republican meeting was held at Hanover station in the town of Plymouth. The meeting had been imperfectly notified, but at an early hour men, women and children were seen bounding their way to the place of meeting in large numbers. At 2 o'clock the hour appointed the meeting assembled in the spacious rooms of the depot of the M. & M. railroad company. Messrs. J. R. Bennett, J. B. Cassaday, A. C. Bates, C. G. Gillett and H. N. Comstock were in attendance as speakers, accompanied by the Janesville Glee club which discoursed most excellent music. The meeting was held until a late hour and was then adjourned to meet again on Wednesday evening at the same place, to be addressed especially by Messrs. Bates and Gillett. There seemed to be a great desire manifested to hear these gentlemen. Let there be a large turn out on that occasion.

**WHO IS SETH JONES?**—This question has at last been answered. Mosley & Bro., booksellers of this city, have the individual in custody, and will exhibit him during business hours to all who are desirous of making his acquaintance.

**THE Prince of Wales** left Portland for England, on Saturday last. Good luck to him. We are glad that he came to this country, and are not sorry that he has departed for his home.

**SUDDEN DEATH.**—The wife of Mr. Joseph Burgess, of La Prairie, in this county, died very suddenly this morning. She appeared to be as well as usual, got breakfast, ate with the family, soon after which she felt unwell, returned to her bedroom and died within a half an hour afterwards. The cause of her death is supposed to be a disease of the heart.

The Washington Star says republicanism is getting amazingly popular in that city since the prospects of Lincoln's election have brightened, and accession to the republican ranks have been overwhelming. It is amusing to hear the ejaculations of surprise at different parties met at the republican club room. "Who the devil would have thought of seeing you here?" "Hello! I thought I saw you behind that bell at Rockville?" "When did you leave the Breckinridge crowd?" "I thought you was for Douglas?" "Thunder! you a republican? Times have changed since you was in the mob that was going to tear down the Era office?"—and so on.

**Moore's Sewing Machine.**

CINCINNATI, Oct. 13.  
**To the Public.**—In the Press of Thursday, the 11th inst., appeared an article from the office of the Grover & Baker sewing machine company in this city, asserting that all machines making the same stitch, but elsewhere, would subject the purchaser to prosecution, intimating that the Grover & Baker machine alone had the right to the stitch. We would most respectfully say that the Moore machine makes the same stitch as the Grover & Baker machine (in a more perfect manner), and is made and sold under valid patents. We would caution those desiring to buy a good sewing machine against such erroneous publications. We will give a written guarantee to all who purchase our machines against all loss from any prosecution. The price of our machine is only \$30, and was recommended by the committee of the Mechanics' Institute as better than Grover & Baker's.

## COMMERCIAL.

**Janesville Wholesale Market.**  
Reported for the Janesville Gazette, by  
**BUMP & GRAY,**  
GRAIN AND PRODUCE DEALERS.

JANESVILLE, October 22, 1860.  
Receipts of wheat were lighter to-day than Saturday, and prices at shipping grades were 10c lower. There were about 2500 bushels on the market, and at 80c for milling spring, and 75c for fall shipping and 60c for fall and ground. The market closing moderately firm at these figures. Receipts of oats were large and market dull at 15c for 1860, and 10c for 1861, in different lots, at these rates. Butter and eggs in good demand at our full quotations.

We make up prices as follows:  
WHEAT—white winter 80c; good to choice milling spring 80c; fair to good shipping 75c; and 70c for fall shipping and 60c for fall and ground. The market closing moderately firm at these figures. Receipts of oats were large and market dull at 15c for 1860, and 10c for 1861, in different lots, at these rates. Butter and eggs in good demand at our full quotations.  
TIMOTHY SEED—in good demand at 1.60, 1.80 per 40 lbs.  
BAYLEY—ranging at 40c per 50 lbs, for good sample, and 35c for common.  
HIDES—green, 6 to 8 Dry, 12 to 12.  
FLOUR—spring at 2.50, per 100 lbs.  
POULTRY—dressed turkeys, 75c; chickens, 60c; live chickens 12c each.  
WOOL—ranging at 25c per pound for common to best clip, with but very little coming forward.  
**Chicago Market.**

## Phoenix Insurance Co. of Hartford.

We take pleasure in directing the attention of property holders to the statement of the Phoenix Insurance Company, published in another column. This we consider one of the most reliable Insurance Companies in the country, and we think no one need have the least hesitancy in effecting an insurance in it. Their exhibit shows conclusively of its reliability. No one owning property should go without an insurance, and to such we recommend them to call on the agent and at once effect an insurance.—*Home Journal, Ind.*

**Continental Insurance Company.**  
This prosperous corporation, in order to meet its present and growing wants, has just completed the purchase of the desirable property known as No. 102 Broadway and No. 111 Pine street. Possession will be given on or before the 1st of May next, when we learn a new and beautiful structure will at once be erected, suited to the requirements of the Company. No institution of a similar character in the nation, all things considered, can boast of such an unparalleled prosperity as can this. Commencing with a cash capital of half a million of dollars, it has steadily and rapidly grown, until its available assets now amount to about one million. The officers and directors are known all over the country as among the leading industrial business men and capitalists of this city. No better, safer, or stronger Insurance Company exists than the Continental. May it live and grow a thousand years, and continue to pay fat dividends.—*New York Independent.*

## To the Public.

"Now is the accepted time"—to-morrow may be too late—delays are dangerous.—Have you got a store of goods? Have you a dwelling house? Have you any insurable property? Go at once to Dimock's Agency and have it insured. Do not let the melancholy words "he had no insurance" prove applicable to your case in event of a sweeping fire.

## NOTHING LIKE IT TO RESTORE A DOUBTFUL CREDIT.

It is greatly to the credit of any owner or occupant of a building to have placed conspicuously over his door, any of the following leading companies' house plates. The Home of New York. The Phoenix of Hartford. The Continental of New York. The Security of New York. The Merchants of Hartford, or the Northern of London, England. Is your credit at the Banks getting below par, up with one of these plates and you are all right at the Rock County, the Central or at Hoyt's.

Every passer-by will say "there is a sound business man." Tell your New York creditors that you insure your lake freight in the reliable Old Home, and your goods after their arrival in any of these incomparable companies and your orders will at all times be filled, and at the lowest figures. A few more of these ornamental plates left at Dimock's Agency.

## LOCAL DEPARTMENT.

### An Extensive Establishment.

We have lately gone through the different departments of the large dry goods store of McKee & Bro., of our city, and were truly gratified at the immense stock of goods kept by this energetic and enterprising firm. As an evidence of the business of Janesville, a detailed description of this establishment will be interesting to our readers.

The "Brothers" occupy two large buildings, fronting 44 feet on Main street, with a depth of 100 feet, and five stories high, including the basement, entirely used for a wholesale and retail trade in dry goods, clothing, etc., etc.

Both cellars are filled to their utmost capacity with goods for the wholesale trade, purchased by them in "original packages" direct from the manufacturers and large commission houses both in Europe and America.

One of the firms lately informed us that the wholesale trade which they have done, for the past year, has far exceeded their most sanguine expectations. The lower floor, 22 by 100 feet, of this large concern is devoted to the retailing of staple and fancy dry goods, and giving constant employment to from twelve to sixteen clerks. The general clothing, hat, cap and woolen department, on the same floor, occupies a space of 22 by 70 feet, there being from fifty to one hundred hands employed in that department alone, for the manufacture of clothing, of which there is an immense stock constantly on hand. This is a good idea, as they are confident of getting garments made up in a most substantial manner, besides giving employment to so many industrious mechanics of our city.

The whole second floors are occupied by the wholesale millinery department in all its varied branches, and we are ordinally informed that up to the present, their sales this season have been double that of former years. This branch of business was formerly done altogether in Chicago and Milwaukee, until the opening of McKee & Bro.'s ware rooms.

The third and fourth stories are used altogether for the storage and sale of carpets, oil cloths, druggists, matting, rugs, etc., and general furnishing goods. The stock is complete, embracing everything in that department. Altogether, their stock is immense, and comprises all styles of goods and will compare favorably with that of large stores in Atlantic cities.

We are proud to see houses of such magnitude carried on with evident prosperity. It speaks well for our city and county. Such is the close competition and the desire of our merchants generally to do a large business, that Janesville for many years has had trade from almost all the surrounding counties, not in dry goods alone, but in all the other branches of trade. There are several other large business houses in the city, whose names are as familiar as household words, and who, in connection with the McKees, have won Janesville an enviable reputation throughout the west.

**TAXES.**  
The undersigned gives notice to all those who have not paid their city tax, that unless paid forthwith he will proceed to collect the same according to law.  
JANESVILLE, Oct. 9, 1860.  
O. B. A. YOUNG, collector.

Harper for November has been received at Dearborn's.

**BUCKSKIN GLOVES.**—Bornheim has a large number of buckskin gloves for sale.

Don't forget to come and enjoy yourselves at the P. M. church at 7 o'clock this evening.

**A VOTE ON THE CARS.**—The Watertown Republican says:—"A special train was run to this place from Waterloo last Friday for the accommodation of people living there who desired to hear Judge Douglas. On the way in, a vote was taken as to the presidential preferences of the passengers, and resulted as follows: viz: Douglas 33; Lincoln 25. We should judge that about the same ratio prevailed in the crowd present at the depot to hear Douglas speak. At all events, a large number were Lincoln men."

**NEW GRAIN STOREHOUSE IN CHICAGO.**—Munger, Armour & Co. are about to erect a new grain storehouse on the South Branch, near the railway bridge. The Herald says the building on the ground, exclusive of the engine-house, is to be 80x270 feet and 110 feet high from the ground to the top of the roof. There will be used in its construction 65,000 cubic feet of stone, 1,500,000 feet of timber and lumber, 70 tons of iron, 1,500,000 bricks. Its capacity will be nearly 700,000 bushels, and the plan is adapted to receive grain from sixteen cars at once, or to load two vessels at the same time. The entire cost will be about \$95,000, and it is expected to have it in complete working order by the fifteenth of next April.

**TAX TITLES IN WISCONSIN.**—The circuit court in session lately in Lancaster, decided that possession of lands under a tax title deed for three years and more under the limitation act of 1849, was no protection to the occupant. The titles are rather poor foundations to build on.

**WHO IS RIGHT?**—The Democrat of this city has information from "a resident citizen of Watertown, and a man in whose honor and veracity the most implicit confidence can be placed," that no assault was made upon the Wide-Awakes who visited that city when Mr. Grow was announced to speak there. If the informant alluded to is of the character stated, he has a manifest advantage over the operators upon the hand organ which vouches for him. We will, however, turn this informant over to the Watertown Democrat, a democratic journal published where the assault was made. It condemns the outrage, and declares that "When assaulted with clubs and stones, it is natural that they should defend themselves, and the way they walked into a saloon where they had been outrageously attacked was a caution to the offenders that they had better get out of the way. Some of the mischievous got badly bruised, and if others who escaped had a few blows that were received by the innocent, it would have been all right."

## REPUBLICAN CLUB MEETING.

The Janesville City Republican Club will meet at the court room, Tuesday evening, Oct. 23d, at half-past 7 o'clock. It is important that every republican in the city attend this meeting, as full arrangements will be made to complete the work of the campaign. M. B. Hawes and others from the city, and perhaps a speaker from abroad will address the meeting. Do not fail to come and come early.

R. B. TREAT, Pres.

A. A. JACKSON, Secy.

**The Wide-Awakes.**  
Are requested to assemble at the same time, for important business. It is hoped that every member of the company will be present.  
A. B. McLEAN, Captain.

### Republican Meeting at Hancock.

On Saturday last a republican meeting was held at Hancock station in the town of Plymouth. The meeting had been imperfectly notified, but at an early hour men, women and children were seen bounding their way to the place of meeting in large numbers. At 2 o'clock the hour appointed the meeting assembled in the spacious rooms of the depot of the M. & M. railroad company. Messrs. J. R. Bennett, J. B. Cassaday, A. C. Bates, C. G. Gillett and H. N. Comstock were in attendance as speakers, accompanied by the Janesville Glebe club which discoursed most excellent music. The meeting was held until a late hour and was then adjourned to meet again on Wednesday evening at the same place, to be addressed especially by Messrs. Bates and Gillett. There seemed to be a great desire manifested to hear these gentlemen. Let there be a large turn out on that occasion.

**Who is Seth Jones?**—This question has at last been answered. Moseley & Bro., booksellers of this city, have the individual in custody, and will exhibit him during business hours to all who are desirous of making his acquaintance.

**The Prince of Wales left Portland** for England, on Saturday last. Good luck to him. We are glad that he came to this country, and are not sorry that he has departed for his home.

### Sudden Death.

The wife of Mr. Joseph Burgess, of La Prairie, in this county, died very suddenly this morning. She appeared to be as well as usual, got breakfast, ate with the family, soon after which she felt unwell, returned to her bedroom and died within a half an hour afterwards. The cause of her death is supposed to be a disease of the heart.

The Washington Star says republicanism is getting amazingly popular in that city since the prospects of Lincoln's election have brightened, and accession to the republican ranks have been overwhelming. It is amusing to hear the ejaculations of surprise as different parties meet at the republican club room,—"Who the d— would have thought of seeing you here?" "Hello! I thought I saw you behind that bell at Rockville?" "When did you leave the Breckinridge crowd?" "I thought you was for Douglas?" "Thunder! you a republican? Times have changed since you was in the mob that was going to tear down the Era office!"—and so on.

**Moore's Sewing Machine.**

CINCINNATI, Oct. 13.  
To the Public.—In the Press of Thursday, the 11th inst., appeared an article from the office of the Grover & Baker sewing machine company in this city, asserting that all machines making the same stitch, but elsewhere, would subject the purchaser to prosecution, intimating that the Grover & Baker machine alone had the right to the said stitch. We would most respectfully state that the Moore machine makes the same stitch as the Grover & Baker machine (in a more perfect manner), and is made and sold under valid patents. We would caution those desiring to buy a good sewing machine against such erroneous publications. We will give a written guarantee to all who purchase our machines against all loss from any prosecution.

The price of our machine is only \$30, and was recommended by the committee of the Mechanics' Institute as better than Grover & Baker's.

**H. C. BURTMAN,**  
General Agent for Moore's \$30 sewing machine, 92 West Fourth street.

In relation to this sewing machine, the Scientific American says:  
"Simplicity, cheapness and practicability are the necessary requisites for a popular sewing machine. The Moore double lock-stitch machine here illustrated combines these features most effectively, and is sold at the reasonable price of \$30 dollars."—"The motions of this machine are all positive, and being strongly made, does not seem liable to get out of repair."

### COMMERCIAL.
